“ I would like to express my condolences to Hugh's family during this time. Hugh joined the City of Toronto in 2003 as a Uniface programmer. Hugh provided support for over 17 years. Hugh delivered high-quality work, and he was the go-to person for most critical issues related to the Uniface. We relied on him greatly for any major incidents and were able to feel relieved when he was there.

Hugh contributed immensely to the hundreds of incremental changes and releases conducted in the TMMS application over the years, three major Uniface version upgrades and won numerous awards. Hugh was an excellent problem solver and provided continuous application support for many critical services at the City of Toronto. Hugh will be missed and would like to provide any support needed by the family at this time.

Sincerely
Monika
