“ Bert was my step dad and I loved him very much. The story that Mr. Hazelton shared is the man that I will always remember. Bert was that same man to me my whole life. I thank you for sharing your story. I have so many good memories that I hope to post soon. I will miss him very very much for the rest of my life.

“ I want to share a memory of the type of man your Dad was that has stayed with me all these years. The incident started one night in Mitchell's Corners when I was about 13 years old around 1961. Myself and a couple of my friends let the air out of your Dad's car tires just because we were bored I guess. He chased and caught me and instead of marching us up to our parents or calling the police, he befriended us and actually took us bowling and taught us why it was wrong and the problems we could have caused as people relied on their cars for emergencies etc. Now here was a man that had a large family of his own, taking the time and spending his own money to take us bowling and teaching us all to be better people through his actions. That was over 50 years ago and I never got the chance to thank him as a adult so I am hoping this small tribute will make up for that and let you know that I think your Dad was a special man.
