“ I remember Barb from Hillcrest High School in Ottawa. We were in the same grade and chatted many times. She was a very nice person. In grade 12 she co-produced our school plays. I guess this may have been the beginning of her impressive career in Theatre Arts. Well done Barb!

“ It was my pleasure to serve with Barb at One Burlington over the last few months. Despite the short period that I worked with Barb, I was able to witness her kindness, her dedication and her love of the arts. Barb will be truly missed at One Burlington, and I am sure among her family and friends. May God repose her soul.
