DA

“ I was very saddened to hear of Barry's death only a week after Dad's death. It was nice to get an opportunity to talk to him at Dad's funeral. He had been a constant friend of my Dad's for 40 plus years, and I have many memories of our families from my childhood. His love of books, history and music that he often shared when talking to him will be fondly remembered. I am glad that I also got an opportunity to talk to Colin and Julie at Dad's visitation, my condolences to the both of you as well as to David, Darlene and all your families. May your memories of him in happy times and health sustain you in the time ahead. Darlene(Coull), Terry Asquith and family..
