“ Our Condolences to the Bucking family and Tillaart families. I knew Betty and the Tillaart family during Catholic junior school days in Ingelside and living on the 2nd concession country road. RR#2. Our paths thereafter went different ways and we only met again 2 years ago at my Mothers funeral in Ingleside. She with her husband drove all the way from Ajax to Ingelside which is a testament to her caring and tough character.

“ *My deepest condolences to Bernard and the Family. Wonderful memories come to mind of our families visiting so many years ago. Betty was the older responsible cousin who gently kept all the younger kids in check. I was fortunate to have had two lovely visits with Betty in 1996 & 97 and even though she was struggling with serious health challenges, her ever present positive energy, smile, courage and graciousness filled the room. Betty is now pain free and with the Lord and her departed loved ones, but I know she will be greatly missed.*

“ *My family grew up alongside the Tillaart family. Our Dutch heritage bonded our families together. Although I did not know Betty as well as some of her younger siblings I do recall Betty as a positive individual who always saw the funnier side of life. I am certain her family will miss her positive spirit. Rest peacefully Betty.*

“ Will miss her kindness and caring for all her family and friends. Will miss her regular phone calls, the last few years especially, when we could not visit because of the Covid situation. Will miss the dinners followed by competitive games of euchre at our homes. Oh the list of misses could go on and on. Thankfull for her friendship, how she welcomed me in her family circle when I arrived in Canada. Thank you Betty, Gaye.

“ Growing up in Ingleside, Ontario Betty and family lived a couple of miles down the road from us. They were a family of 12 children and ours had 11 and we were all close in age. Both families immigrated from Holland and we were best friends.

Betty was an incredibly strong individual. She endured so much through her life. Being the oldest girl of her family she was always concerned, involved and looked after everyone till her passing. In her residence for 4 years she was very involved in activities and regularly fund raised at the front entry.

Your loving family, friends and staff at the residence will miss you dearly. We will be sharing beautiful stories about you forever.

“ *Betty was my first and steadfast childhood friend. Through play, school, religious celebrations, and even the arrival of the Beatles (Betty was a big fan!) she was simply always by my side. Even though our paths diverged for a time, the connection remained. Visits, albeit infrequent as we lived 3400 kms apart, were a certainty as were our telephone chats every few months. She never forgot my birthday! Despite her many health issues and limitations, Betty never let that become the focus. Instead, she embraced the joy of being with family and friends and was always there to support. Barely out of hospital herself she was present as we said farewell to my father. Eight years ago, she and Bernie made a trip out to Calgary so she could see my Mom before it was too late, and she was there as we said farewell to my Mom two years ago. Now we must say farewell to Betty. I just want to say, Rest peacefully Betty and thankyou for being my friend.*

“ My condolences go out to the family. Betty and I worked together at Ajax Hospital and shared a lot of good times. We also moved from Ajax to Whitby about the same time. While volunteering at Fairview Lodge I was very happy to see her there as a resident and we had some wonderful conversations. We will definitely miss you at Fairview.

“ My oldest cousin in N-America who lived with Aunt Francis at the same time when Bill and I were living at uncle Lawrence and aunt Mary, the first year after we immigrated to Canada. It meant that we saw each other regularly during that time. I loved having a cousin nearby when all the other cousins were much younger.

I was honored to be her maid of honor at their wedding. I will never forget that day.

Betty and Bernie visited us in NY in 1997 and Betty's wish was to have a horse and carriage ride through central park and of course we did. We all had a wonderful time.

Shortly after her return to Canada, she had her second surgery followed by the stroke. That's when she had to go into a wheelchair. Betty always emphasized education for her girls and for her nieces and nephews.

She was the matriarch and wanted the best for them!

May she rest in peace!
