

## Beverly James Ashfield

December 27, 2021

September 21, 1930 - December 27, 2021

In his 92nd year Beverly James (Jim) passed away with his family by his side. Beloved husband of Joyce Ellen Ashfield (Whiteway) for over 67 years. Father to Susan, David (Val), Janet (Richard), Steven. Beloved grandfather of Matthew and Simon (Imogen) Poole, Zach (Miranda) and Josh Ashfield and Elizabeth (Matt) Ashfield. Great grandfather of Alberta, Lillian and Roseabelle. He was a teacher for the Scarborough Board of Education and taught many subjects; but his favourite was Industrial Arts. He also trained teachers at the Ontario College of Education during the summers. In his retirement he taught carving at the local Community Centre.

He loved building things, the cottage at Kennisis Lake, ham radio, carving, bridge, investing and most of all his family. In addition, he enjoyed making (and drinking) wine for which he regularly won awards.

He was a generous man who instilled a work ethic and spent many summers doing large projects with his family including building a boathouse, a boat ramp, a pier and a cold room, to name a few. He was known as the proprietor of the Kennisis Lake hardware store where if you needed something, he likely had it in the boathouse and would share his hardware, knowledge and tools. He is loved and will be missed! A private family wake will celebrate Jim's life at a later date.

For those wishing to make a donation, Heart and Stroke Foundation of

Canada would be appreciated.

“ So sorry to hear this. My sincere condolences. It was always great fun when we men were invited to the mixed bridge! Such wonderful memories. Always enjoyed Jim’s most recent batch and he was a master at sharpening knives.

“ Jim was a member of a small ham radio club called the Senators. We meet once a week to discuss ham radio, technical stuff and solve the world's problems and Jim always had some great ideas or suggestions he was willing to share with the rest of us. We have a lot of fun and have had many animated discussions without anyone getting hurt. ;-)

*Jim was active as a ham radio operator for many years and made friends all over the world. When he wasn't in front of the radio he was probably carving something or working on some improvements or new gadgets for the cottage at Kennisis Lake. Jim was also a very friendly person always willing to help others.*

*Jim will be sorely missed by all of us in the Senators radio club.*

*Bert Almemo, ham radio call sign VE3NR  
on behalf of the Senators*
