JT

“ He was quite a character! I'll miss his sarcastic wit, his deep commitment to family, and the love he always showered upon my children.

*Lots of love,
Janice Taylor*

EL

*This is a very very sad message for me to write he was his own man and a good one at that he had a temper like his ma but was very forgiving if he was in the wrong as my wonderful sister-in-law would verify as she was on the wrong side of some of the worst of that but he adored her like no other woman on earth he was a lucky man. And he knew it as a brother he was a torment and a tease but I am so glad of the last year's as we all got a lot closer and could understand each other better I loved him and always will my heart is broken I feel numb and as a wee sister David thank you for being my big brother someone has gone from my life that I will never forget goodnight and rest well you deserve Pease David x
Elizabeth Adams Girdwood forever your sister*
