“ As her baby sister I have lots of memories. Always treating me in a motherly manner, her unique laugh, and the sound of her soft calming voice will be greatly missed. in my younger days her laugh when I'd make her son Richard call me auntie before I'd go play games or cars with him always stuck with me. When visiting I remember admiring how careful she was to be sure we scrubbed and rinsed the tub before she would bath her children. She lived a life with many challenges but like a true Miller always conquered and over came. Cherishing memories and remembering you always sister.

“ My days will NOT be the same! 💔 Your voice, your love, your laugh, your calls, your messages, your check ins. I miss you and Michelle so much! Sending healing to everyone broken from this loss 🙏 May you have even more strength on the otherside than you had here. Two of the strongest women I knew! It's a comfort to know you are no longer suffering. Rest in peace Auntie Di and Michelle ☐ Rest knowing you were so loved!
