

## Dolores Visintainer

January 28, 2025

With broken hearts we share the passing of Dolores Visintainer, on January 28th, 2025. Beloved Mom to Micheal (Jennifer) and Jason. The BEST Nana to Dawson, Jade (Meekail) and Emma. She will be greatly missed by her sister, brothers, nieces, nephews, extended family, and friends. Many meeting her were initially intimidated by her no-nonsense demeanor, however once you got to know her you understood it was only to hide the softest of hearts. She will be so very missed. In lieu of flowers, please consider donating to the Canadian Cancer Society.

“ *To the family,*

*As I navigate this profound loss, please know that you are not alone. Dolores may have left us too soon, but her spirit and our own special bonds we all had with her will always remain in our hearts forever.*

*My journey with Dolores started the moment she first walked through the doors at ITC Systems. We quickly went from being trusted work colleagues to good friends, and I will forever cherish the countless memories of lunches filled with hysterical laughter, the many dinner outings that turned into unforgettable nights, and the concerts we attended that brought us so much joy.*

*Miss you buddy!*

“ Dear Family Members,

*Dolores came in for an interview at ITC Systems in March of 2010. Dolores so impressed us that we immediately made her an offer that, thankfully she accepted. Dolores was very organized and knowledgeable with regards to bookkeeping that it made the company's financials sing!*

*Over time Dolores took on more accounting responsibilities which included the US division, the real-estate corporation and an investment company's books. She had a killer sense of humour and shared this with me when I would try to suggest alternative bookkeeping methods!*

*After selling ITC Systems we periodically kept in touch and shared what was happening in each other's lives. It was a very sad day when I learned of Dolores's medical situation.*

*She will forever be remembered as an associate but mainly as a friend. I will miss her.*

“ I remember putting shopping carts up by her front door. Every other night. She would come home from work. Get out of her car and shove them out to the side walk. I did this a couple times. I was always watching. Lol She was ok with this a couple maybe 5 times. let's say the 6th time she didn't just push it out to the side walk. She drove that mother f'er right out on to the street! Lol I never said anything about this. She had a party one night about a month later. I had stopped doing this, because I new she was very upset. We were all laughing, eating and drinking. I just happened to mention shopping carts! The smile dropped from her face..... Uh oh! She had a few choice words for me. Then we all laughed our heads off. She was so much fun. She was just like a sister, that I never had. But I could tease her all the time. This was not the only thing I did to her! I will tell more another time. Heather and I loved her and the family. She will be missed by everyone that new her I'm sure. God bless you all! Try to stay strong and keep her memories close to your heart. She was one of a kind sweet lady, great mom.
