“ I met him in the 1980s at Plaza Venetia, while with Mrs Hazel Shepard  
I kept the keys for them for six months every year for some years  
A hurricane ruined their car kept at Dons apt in Coconut Grove.  
I had to pick it up an send it to the dealer!  
Always a gentleman, only fond memories!

“ We will treasure our memories of developing our beautiful friendship with Don. How easy and lovely it all was. Our deep sorrow includes our shared sadness that we came into our times together so late in Don's life. We will keep him close in our hearts. He was a true gentleman in every respect and we will miss him dearly.

I am really shocked to hear the sad news. I worked with Don and he was my boss and my friend. Don thought me the importance of being independent and strong. I'll never forget you, Don! So long farewell, to you my friend...Goodbye for now, until we meet again.
