

Dorothy Kathleen McRae

June 5, 2022

Dorothy K. McRae: Mom has passed. 98 of the best years, many hours working the school PTA, many more with the UCW at Zion, and over 25 years on the help phone lines. There was lots of time for her incredible progeny (7 strong). We remember fondly the “go out and play and don’t give me a weather report” or “the rhubarb doesn’t need a sprinkle of sugar” or “don’t get lost on the subway”. Yes, yes character building from an age when independence was the thing. Made sense for a head secretary at Canada’s largest munitions plant during WW2 when she was 16. She lived what she taught taking the TTC throughout the city in her early 90s. She noticed the beauty around her and relished spending time with family. Mom was one of five all passed now save one (Hi Auntie Joanie). Mom please say hi to Dad, Grandma and Grandpa , long gone still remembered fondly.

The family would like to thank Sue and Yvette for their grace and humanity to our mother in the late days of her life.

“ We were blessed to meet Great Grandma McRae in 2015 for the first time, when our third baby Naomi was just 7 months. The amazing thing we all took back from her life was, don't stop, even when you are older and others offer help dont stop, the more you stop the older you will feel. It was extremely hard for me, Lindsay, to NOT be allowed to help with dinner or wash the dishes and it felt quite victorious when I was finally permitted into the kitchen to do some washing. Sonu remembers how affectionate she was towards our kids, and never forgot our birthdays. Our girls loved the handmade calligraphy cards and how she always responded to the letters she sent. She was a special lady, leaving a mark on each of our lives. She will be remembered as a strong, sprite woman, younger than her years, and faster than many.
