

## Dr. Elizabeth Jaczina

June 21, 2011

Elizabeth fought a long and difficult battle with cancer with the utmost courage and strength; an inspiration to us all. To the many that have known Elizabeth particularly her broken English and the amazing body language she used to communicate we will always remember her warm smile and twinkle in her eyes when she spoke. Elizabeth had a kind, warm heart and would help anyone that crossed her path. Her love for animals in particular her kitties and of course the pets of others; the animal community at Unity will be at a lost. To her life long friend and soul mate Gordon Bailey our heartfelt condolences. Our prayers and thoughts are with you. Elizabeth, may the Good Lord bring you everlasting peace for you deserve it with open arms. You will be missed by many, never to be forgotten as your memory will always be in our hearts.
