“ My Tita Fely was such a loving and caring aunt to us. When I was a little girl, every end of school year, which would be summer time, my mother would bring me and my sister to their home in Malate Manila to spend vacation with them. They would bring us to places like zoo, parks and big supermarkets and buy some goodies for us. My Tita Fely would comb my hair and put ribbon on it. She would want me to look neat and reminded me always to smile. She was a very generous person too. She knew that we didn't have much when we were younger, so every Christmas time, she would always send us and all our relatives goodies and nice stuff in balikbayan boxes. When one of my aunts fell sick, I remember she'd send bottles of red juice to help her recover. She's so thoughtful and loving really. There were hundreds of kind acts she did for us and they are all kept in my heart, never to forget them. It is with great pain for me to lose her.

Tita Fely, I will never forget you. I will treasure all my memories of you and will always pray that God will embrace you dearly and give you eternal peace and happiness. I love you and all of us do.
