“*Fern King is and will always be my Nana. She had a laugh that would make you laugh , and a smile you won't forget. She was always caring and supportive with great humor. This world was blessed to have her for 90 wonderful years. In this lifetime she achieved the one thing some people never really do.. she met her sole mate. Seeing her and my Pops together was amazing they were best friends , partners and just were meant for each other. Spending time with them when I was young going for Halloween or even just spending some summers with them and learning how to play shuffle board :)*

It is sad to think of the world losing someone so genuine but I can't help but smile thinking she has reunited with her best friend.

*Love Always,
Tyra*
