“ My condolences to George and Helen’s Family, George was an Amazing firefighter, one that always had your back, one you could always count on.

*I remember when George was injured in the Confederation Life building fire collapse in June 1981 and it was said he may never walk again.*

*George was going to prove them all wrong. He was even exercising in bed in hospital. A very strong willed determined man. A fighter.*

*George came back, to do the job he loved. R.I.P. George*

“ I knew George a little on the job but got to know him better at retired firefighter breakfasts. He most often had a joke to tell. We had something in common on the job in that we were both in devastating accidents. I am currently away and unfortunately won't be able to attend the celebration of his life. RIP George.
