“ Even though i have physically lost my mom, her spirit will remain in my heart forever! she passed on her love of reading to her granddaughter who is never without a book in her hand looking for someone to read to. Her grandson has her sense of humor and warm heart for any and everyone who knows him. All of my cherished memories and the life lessons she has taught me has made me the strong woman i am today - i owe her everything! Life will be a challenge now because i will have to figure it out on my own but i know she is still around to lead me the right way. Im glad you are at peace now mum - i promise to love you forever!!!!

“ Jill was the eldest of my 11 first cousins. There were 14 of us altogether. I often relive the priceless memories we made at my grandparents home in the country, especially when we were ALL there at the same time!!!. There was only a 5-year age difference between Jill and I, but she seemed so much older, worldly and experienced to me when we were kids. I enjoyed the stories she used to tell me of her adventures in Ottawa. Jill was a very talented artist, and was particularly skilled at sketching portraits. I distinctly remember a drawing she created of John Lennon when she was very young that was so life-like. She was an avid reader all her life, and. like me and lots of our other family members, a loyal Montreal Canadiens fan.

*My condolences to all of Jill's family, I am very sorry for your loss and hope you can take some comfort in all the memories you have of your sister/mother/grandmother.*
