“ From your Baycrest Dental Team:
Dearest Gladys,
Seeing you come to our clinic was a ray of sunshine. Your smile was infectious. Your sense of humour shone through. Even getting your teeth cleaned, you managed to smile and we made some good jokes. You will remain an inspiration to our team. Your resilience and strength will always be remembered. With love,
Sarah, Win, irina. Juliet, Lina, Doc C and Doc G.

“ I remember staying at your house in Mt Albert because of studying for school exams at Christmas time while my family went to Florida. Good memories of that time. May she rest in peace.

“ To my mother Gladys,

You will be missed. We had many good memories in the last two years together that I will cherish.

We took trips to the Edward Gardens, the beach, the Science Centre and the Aga Khan Museum.

You loved gardening, music, animals, swimming, travelling and cooking.

I will miss your visits to my house and the many times we went out to restaurants to eat.

I did not know who was Josh Groban until you told me who he was.

There were many challenges doing the many things we did, but those experiences help me remember them more.

I am so happy we were able to go swimming last summer and that we were able to see a movie together in a theatre not long ago.

I am sorry you will not be able to see the new Christmas tree I got for this year.

Love,

Sandy
