“ *My Dear Aunt Helen,*

*One of our dear Golden Girls. I have so many memories, but one of  
my special memories was the simple lunches that we had when you  
worked downtown and I was working at the World's Biggest  
Bookstore. It meant so much to me sharing the occasional hour  
together.*

*You were so smart, funny and loving. You gave so much to others  
by volunteering. How cruel life can sometimes be, by stealing your  
most prized possession away .... your memories. But I know you  
remember us now. You know how much we love you.*

“ ‘Sometimes people come into your life for a moment, a day or a lifetime. It matters not the time they spent with you but how they impacted your life in that time.’

-unknown-

*I would have to say that the above quote best fits how our relationship with Helen affected both myself and my children. She loved her grandchildren and had a very special ability to treat them as the individuals they are. Helen took so much interest in their lives, rejoiced in their accomplishments and was a shoulder to console when life was difficult.*

*Helen always reminded me that I was much more than a wife, a mother, a daughter or a sister, (important roles) but that I also had the strength to become the person I wanted to be. Helen was a very strong lady and that strength she wanted for the women in her family.*

*Thank you Helen for your wisdom and friendship. You will always be remembered.*

“ I am not sure where to begin. My grandmother has passed and the last time I saw her was at the funeral of my brother James. I am the oldest of 5 siblings and because of that had the privilege of spending more time with her growing up. When I think of her, she is laughing with tears in her eyes in the company of Aunt Kay (I miss her as well)...my grandmother was at our home at all Holidays. I had the privilege of spending time with her in summers and our brood would make the trip to Thornhill to stay for the weekends. Grandma is remember as being one of the most active ladies... working out along side David Suzuki.. (I don't think she ever really cared for him to be honest) tennis... swimming...she was the coolest grandmother... living in Toronto... she brought me condoms...probable the first I had been given... they were many colours and some...even glowed in the dark. My grandmother on many occasions helped my parents financially.... saving us from financial ruin I am sure. Our family went through many struggles and in the end became so fractured it never really recovered... and because if that.... it was very difficult to keep in contact with her and I could see her struggle and frustrated with an outcome that she had very little to no control over. My grandmother will be missed... she was a remarkable lady...I loved her very much.

“ *My Dearest Aunt Helen - so many Memories - GOOD MEMORIES. The latest was after my return to Canada. I had a nice long talk with her and she gave me such good advice. She was remarkable. I only have 14 letters after my name - but - SHE was the Guru of Human Resources and I ALWAYS listened to what she had to say - SO SHARP ! Thank you so very much, Dear Auntie, for all the help you gave me - and all the fun too. I truly enjoyed every moment I spent with you.*
