DP

“*Dear Jean: You were a wonderful friend and neighbour for 30 years. I shall miss our chats, our trips for coffee, and our bonding over our cats! I will never forget that you planned YOUR vacations around the times I had to travel for my hobby, just so that my cats could be looked after by you.*

I hated to see you struggle physically this past year, but although I am so saddened by your loss, I know that you now breathe freely and are in no pain.

I shall miss you more than I can express. Rest with the angels, my dear friend. With much love and blessings until we meet again.
