“ Judi and I met years ago as volunteers in the kitten nursery at the Toronto Humane Society. We became friends after she reached out to me with sympathy and encouragement when I was going through a tough situation. I will never forget that. She had a wicked sense of humour and was always up for a chat, quick to offer words of encouragement or a kick in the butt, depending on the situation. She was “Auntie” to my pets, always remembering birthdays and special dates. She lived with terrible pain and discomfort from autoimmune disease, and then the terrible cancer. We texted a lot when speaking became difficult. She was one of a kind. I will never forget her. ❤️

“ Judi and I had some fun times together in our younger days! I was so sorry that I was not here in Toronto when Judi passed. We did talk on the phone the week before her death however I never had a chance to say Good-bye in person! Judi's life was difficult because of her health issues, I hope she is pain free and in a better place, Love Cousin Joanne!
