“ I am sorry to learn of Ms. Greenbaum's death. I became acquainted with her shortly before she passed away. We had a lovely conversation about her life's work in mental health. I found her to have a very kind nature and a delightful sense of humour. I regret not having the opportunity to get to know her better. May she rest in peace.

It has been many years since we did a book together with other colleagues and Julia was so kind and helpful. I send my heartfelt condolences to family and her friends and colleagues.
