“ I have so many fond memories of Kelly growing up with her and then into our adulthood. We were always a sounding board for each other. I keep those memories close to my heart. I am sorry that her life was cut way too short. Kelly was an angel here on earth and now god needs you back home. We love you and miss you! xoxo

“ I loved our many chats on our way to meetings at work. If our clients were the same that day we would help each other with care needs. I miss our little tea chats and your smile even on the bad days. Its God's turn to take care of you now Kelly. Love you forever and always.
