“ Larry I will always remember and cherrish those special moments we spent together, as I grew up
The many fishing trips up at Harrington's, as your wing man to start the motor in the fishing boat every morning as we headed out into Clear lake to catch the pickeral and bass with a lot of great succes, the fishing trip up to Owen sound in your Green Ford truck
The introduction to golf you gave me when we would go to Knolwoods for your annual golf tournaments and then back to Bobs for the after party. The many fun times going to Flambourgh race track playing the ponies The many fun times on the boys Hockey games and many enjoyable Christmas eve present exchanges with our familys at your home

“ I cant' say I remember the first time I met Larry, But I'm sure of two things
he welcomed me into his home and kitchen, then asked if I was hungry.

Two great trait's to have "kindness and giving" of which he did and I know he has passed them along to his family

My deepest condolences to the family
