“ It took me a bit to figure out what to say but with your memorial yesterday and seeing all the people who's lives you have touched in one way or another and with words and memories being spoke everything hit me yet again I will never get to hear your voice again I will never get to hug you or even smell you again as I always loved your aftershave even now when I smell it takes me back to Christmas time and many laughs and good memories of us all enjoying the holiday with you and family I wish we had more time to make a relationship that I know we both wanted but as I have been told I am my fathers daughter and just a stubborn too lol but I will always remember the times we did have I love you Dad and I will take comfort in knowing you walk beside me in everything I do I miss and love you and will always remember you  
xoxoxo
