Tribute Wall

DC

“ *Marguerite recently celebrated her 90th birthday with her friends, and then she left us.*

Although Marguerite was born in Toronto, she spent several years living in England after World War II, as well as 30 years living in Los Angeles where she worked at St Vincent's Medical Center and made many friends. When she retired, she came back to Toronto where she made new friends and was able to pursue her love of music.

Marguerite was a great "people" person always trying to help others, and will be much missed by her many friends both here and in the United States. She will be especially missed by Joy, Judy and Don, "grandson" Phillip, Galyna, Karen, Theresa, Moe and John, and Donna.
