My Life, My MariaTeresa

Many persons when they write about their departed loved ones they look for something nice to say. However, in the case of my Angel, my wife, MariaTeresa Ortiz there is so much real happiness and love that she gave us from the very first day that we already miss her very intensely. Born in a very beautiful valley in the Andes mountains of Venezuela on April 6th, 1941 and died in Toronto in our arms at 12 midnight between the 14th and 15th August, 2011, after a heroic battle against pancreatic cancer. MariaTeresa was loved by all those who knew her. Her beautiful smile, the sound of her laughter and her compassion will be greatly missed by all of us.

Her Husband,
Orlando R. Ortiz
