TD

“ My dad became my best friend in adulthood. He looked after our family just like the timber wolf clan. He loved my mom and told me all about the good times that they shared and about her family. Dad knew mom when they were children. He was mom's brother's best friend. My dad was so sensitive, happy, funny and supportive with us. He loved his grandson Lucas and my son could do nothing wrong in his eyes. Lucas was a hugger and his papa got plenty of hugs. Dad came to live with Lucas and I after mom passed away, I wanted him close because I knew he was in pain and so lonely losing mom. He looked after my son and I, he made us meals, bought groceries and we spent a lot of fun times together just the three of us. I miss him still a great deal. When we have your memorial service soon, I will take your ashes home to be next to mom.
