

## Michael Anthony Gray

December 20, 2023

Michael Anthony Gray.

Sunrise May 21, 1993

Sunset- December 20, 2023.

Michael left behind his beloved mother, Denise Byers; his father, Rowan Gray & two older siblings, Danielle Gray & Matthew Gray who loved him so much. He also pre-deceased his loving Grandmother, Elizabeth Byers & Aunt Amanda MacDonald. His large extended family - aunts, uncles & cousins - is grief-stricken. Mike's passing has left a huge hole in our family. We would like to thank the first responders (911 Dispatch & Paramedics), Sherry McTavish & Aftercare for their empathy & patience. We are also so touched by his friends giving him an incredible Celebration of Life. Tributes can be posted at [Aftercare.org](https://www.aftercare.org). Michael will always be remembered through laughter.& music. "A life unfinished yet complete." - Denise C. Byers

“ I want to make sure everyone knows that there was no alcohol or drugs involved in Michael's passing, it was edited out of our post. I am posting this out of respect for Michael and to let everyone know that he had cysts on his brain blocking his spinal liquid from circling around his spine, that was the main cause of death. I know Michael would want people to know this.

“ Michael I miss you more than words can express. My favorite day will always be the day you were born, because it made me realize that I really wanted to become a mom and you were such an awesome practice baby.

“ I miss you so much it's stupid. Even though I still text you but it's still not the same. I have been listening to a lot of our 90's hits lately, I'm sure you're sitting right there with me while we both sing so terribly <3 Love you.

*You were all at my house listening to music. He is passionate about music. We exposed our kids to all different genres so he loved jazz to metal & everything in between. Lol. Thank you for sharing this lovely memory. 🥰*
