

Muriel Agnes Blagden

August 27, 2023

On August 27, 2023 Muriel Agnes (nee McDowall) Blagden quietly left this world and those that loved her dearly. She was just 87 at the time of her death and as was usual for her she could have passed for a generation younger. She is done too soon, we thought she was ageless and timeless.

Muriel was ever young, ever natural and ever beautiful!

Mom has hitched a ride on a twilight train

Grandma is riding a scooter on the Milky Way

She is dancing on the moon and waving at the sun

She is knocking three times to tell you she loves you

We will smile and hear her say come, come and look at the sunset that she loved to share with us

We will see her dancing under the moonlight and make wishes on her star

Somewhere there is a party and it just got so much better because she is there

We know the footwear has to be flip flops at this frolic!

Let the sunshine in and think of her every time you see a stand of Black Eyed Susans or Tiger Lillies.

Her love for us was limitless and she will never leave us.

Her smile was the happiest, her hugs were the warmest and for her pets, her lap the softest.

She was our Mom, our Grandma and our very best friend. She was a confidante and a mentor. She was an inspiration.

She will be missed and remembered forever by her daughter Caryl and her granddaughters Stephanie and Melinda.

A private and meaningful celebration of her life will be held.

“ How sad to hear Muriel has passed. I'm certain her reunion with family and friends who were waiting for her was, is, and will always be joyous.
