“ Many moons ago Patty asked me to teach her how to say something in French so that she could say it to her husband Louis .So I told he to say ....Don a moi le cendier. She worked all day to practice this(pass me the ashtray) when Louis got home she proudly spoke to him She said Louis don a moi le Chevrolet..He laughed and said I thought you liked your Dodge . It has lead to many times of laughter since. Evert time she talked about it she would laugh so hard .
