“ *Becky was such an amazing friend and well loved by myself and my kids . She always knew how to put a smile on my face and cheer me up when I needed most . Becky and I shared so many private and very close conversations with each other and we could talk to each other about anything . My kids loved her like an aunt and will deeply miss all the teasing she use to do with them and also would give them trouble when it was needed and then laugh later with me in private about it . Summer times she would be in the backyard playing music , dancing and laughing to Newfie songs and always seemed to make the best out of any situation. My heart is truly broken and will miss her terribly. I wasn't able to spend time with her the past couple months due to personal health issues I was going through and didn't want to make her worry more about me instead of focusing on her own health but that's the person Becky was , she cared so much about everyone she loved and always showed that to each person in her life . Becky you will always hold a huge place in my heart and no words can describe just how much I love you and I wish I could of come to see you , hug you and tell you again how much I loved you . I know you knew how I felt because I told you many times but my heart aches knowing I couldn't tell you one last time . My deepest condolences to Jason , your sons , grand daughter and your parents . Life will never be the same for any of us without hearing your laugh , see your smile and most importantly being able to just talk to you but our memories we will Always have . I love you Becky forever and always and may you Rest In Peace*

“ Dear Jason and Family,

I remember you and Becky as Botwood Collegiate sweethearts. At that time, Becky did all of the talking and made all of the decisions...and you seemed so comfortable taking her lead and supporting her. Even then, at such a young age, you both created a lasting and a loving bond.

Becky was a big soul in a small body and she was a force to be reckoned with.

I am so sorry for your loss.

With lots of love and fond memories,

Sandra Bessey
