“ *I first met Dr. Shury and his wife when they moved to Riverview, NB. I let them at my work place and soon became friends. I had dinner at their home one night and Dr. Shury was showing me his beautiful pond with fish and surrounding flora. He in turn came to our home for dinner meeting my husband and children. I didn't know his wife as well as him. He was a kind, caring man. He is definitely missed. D.Wilson NB*

“ *It is late...I just learned of Dr. Shury's passing several years earlier. When I met he and Philo they were a wonderful couple, their past history and information about their country was so enlightening...his finale...tragic to say the least. A great Man, Interesting, Intelligent and who brought so much to the community of New Brunswick. I am happy to say I knew Him and Them. my personal blessings to Philo, her extended family and condolences for Dr. Shurys' passing. ELS - Moncton NB*
